## ENTREPRENEURSHIP AND SMALL INDUSTRIES MANAGEMENT

**Preamble:**-Entrepreneurship is the 'Engine of economic development.' This paper is revised keeping in view dynamic nature of the education system, which would create global competence, training, skill development and motivation among the young learners to become a successful entrepreneur. The paper should be taught and learnt by using participatory methods of teaching – learning like case studies, role plays, exhibitions, interviews, group discussions, review of articles, preparation of business plans, surveys etc. Industrial, Institutional and / or field visits should also be arranged for the project work of internal assessment. As this is an Applied Component Paper, the College should encourage creation of Entrepreneurship Development Cell in the college run by the concerned teacher teaching this paper and the students opting for this paper. This would enable the learners to learn actual applications of the concepts by doing activities like setting up of stalls of social entrepreneurship and showcase the articles made by the specially challenged people.
