PROGRAMME OBJECTIVE

Google Drive is a versatile option for both teachers and students, and it should perform most or all of the functions you and your students need; there are also countless third-party add-ons to extend Google Drive's abilities. With Google Drive, you get word processing, spreadsheet, and presentation tools, along with a number of other Google applications such as Forms, Sites, and Maps.

COURSE CONTENTS

The Complete **Google Drive** Course. This course will teach you to understand how to use and become familiar with the storage and productivity component of Google Suite: **Google Drive** and Google Apps.

Google Drive is a safe and secure online file storage service that allows for easy collaboration and sharing. It is compatible with all types of files, ranging from PDFs to images to videos. Unlike its competitors, **Google Drive** offers up to 15 GB of free storage and a variety of online tools. One of its biggest features is its ability for multiple people to simultaneously work and collaborate on a project together. It encompasses four integrated applications: Google Docs, Google Slides, Google Sheets, and Google Forms.

Google Docs is a document management and editing tool. Docs allow you to create, edit, and update any documents. Docs is highly compatible, allowing you to choose from several file formats to download from. **Google Drive**'s document editing tool is easy to learn with the understanding of any basic word processor, but it offers much more to allow more experienced users to create complex and intricate documents.

RESOURCEPERSONS

The lectures in the course will be delivered by

WHY Google Drive

1. How much large files can Google Drive upload?

Google Drive has limit of maximum file size up to 750GB a day and 3 files per second when uploading, and the upload max speed is around 45MB per second. The maximum individual file size that you can upload or synchronize is 5TB though you can't upload it in one day.

2. How do I see my Google Drive upload files?

To check if your files have been uploaded to Google Drive, you have three ways.

1. On your computer: Install the Google Drive application and then you will see folder called "Google Drive". Drag files or folders into that folder and they will be uploaded to Google Drive. Then, you will see your files on drive.google.com.
2. On your Android phone or tablet: Open the Google Drive app > tap Add Add question > tap Upload > find and tap the files you want to upload > now you can view the uploaded files in "My Drive".
3. On your iPhone or iPad: Open Google Drive app. In "My Drive", you will see: Files and folders you upload or sync.

3. Can I upload 20gb to Google Drive?

Yes. Google Drive allows you to upload files up to 750GB a day. So, you can upload 20gb to Google Drive. However, you should keep in mind that Google Drive only lets upload 3 files per second at the same time. The upload speed maybe slow if your 20gb file is separated into several parts.

Students gets answer of these and other such questions after this short term course.

.

ELIGIBILITY

The training program is open to F.Y.B.Sc. and F.Y.B.Com Students

ABOUT College

The College was established in 1996 with the primary aim of providing an array of courses for the students of rural setup of Mandangad and its surrounding area. In recent past, several need based courses (U. G. Program) have been introduced to equip students to meet global challenges. The College aims at providing quality education to all. The fee-structure for aided and unaided programs is charged as per the university rules and also financial assistance is provided at personal level to needy student. The college does not accept any donations at the time of admission.The college has one division at F.Y. and S.Y. B.A. and 06 subject at T.Y.B.A. level imparting instructions in Marathi medium and thus catering to the local needs. Several co-curricular and extra-curricular activities (sport, cultural, extension and social outreach activity etc.) organized by the college contribute to the overall personality development of student as valuable human resources. Women developed cell of college organizes several gender sensitization activities for girl student.

ABOUTTHEDEPARTMENT

The department of Mathematics is dedicated to impart high quality education in Mathematics to the undergraduate students for helping them to solve challenging problems by using mathematical theories, software and models. Along with the teaching responsibilities, the faculty members are actively involved in research.

Report of Workshop
ICT Skill

Topic: **Hand on course on Google drive**

Department of Mathematics of LokneteGopinthaji Munde Arts, Commerce & Science College, Mandangad has organized One-Week Short Term Course ON **"Hand on course on Google drive"** on 15-20 Feb 2018. There are **79** Participants were presented in the short term course and Resource Person is Mr.Dalvi S.R. In this Short Term course students learn following things. Most users access Google Drive via its web app. Users without Wi-Fi access can still view and edit files via an official Chrome extension, Google Docs Offline. Another official extension for Chrome, Save to Google Drive, enables users to save content from the web to their Google Drive using their browser or through a context menu.

Previously, Google Drive had desktop apps for Windows and macOS, but support for those ended in May 2018. Then, a desktop app called Backup and Sync allowed users to sync copies of locally stored files to the cloud. Business users could also use Drive File Stream for macOS and Windows, which stored files online and prevented users from keeping sensitive corporate data on their hard drives. At the time of publication, all these features have been rolled into the comprehensive Drive for Desktop app.

Google Drive's mobile apps for iOS and Android allow users to store, share and view files. To create and edit files, however, users must use the separate Google Docs, Sheets and Slides apps.

Significant features of Google Drive

Google Drive integrates with several first-party and third-party external web applications that users can add from the Chrome Web Store. Users can sign documents, create flowcharts, store music files and complete other tasks using these apps. To add a third-party app, users can click My Drive, More and

---

then Connect more apps. Third-party apps are all free to install, but they can charge users fees to use certain features.

Google Drive's search feature can sort results by item name, file type, date modified, location, owner and more. Users can also make queries in natural language, such as "find my sales presentations from last May."

The Quick Access feature for the Android, iOS and web apps uses machine learning to predict files that users will need based on their Drive activity and workday patterns.

There are also file size limits in place, but they won't cause problems for most users:

- **Documents:** Up to 1.02 million characters. If you convert a text document to Google Docs format, it can be up to 50 MB.
- **Spreadsheets**: Up to ten million cells or 18,278 columns for spreadsheets created in or converted to Google Sheets. The same limit for Excel spreadsheets
- **Presentations:** Up to 100MB for presentations converted to Google Slides.
- Google Sites: Up to 15,000,000 characters per page, 40,000,000 characters per site, 10,000 pages per site, and 15,000 images per site.
- **All other files:** Up to 5TB.
