

**Internal Quality Assurance Cell (IQAC) has contribute  
Significantly for institutionalizing the quality assurance strategies and processes**

Internal Quality Assurance Cell (IQAC) of Loknete Gopinathji Munde Arts, Commerce & Science has significantly contributed for institutionalizing the quality assurance strategies and processes by implementing quality scheme and practices.

**I) Promotion of Research and Development**

The IQAC frequently used to approach and communicate the faculty members to undertake research projects from various agencies i.e. UGC, University of Mumbai etc., which increased sophisticated instrumentation facilities, books, journals and satisfactory publications. During last five years(2017-18-2021-22) faculties completed 4 research projects from various funding agencies. The total outlay of the projects sanctioned to faculty members of the college during last five year is around Rs. 1.8 Lakhs. The number of research papers in UGC enlisted journals and various other databases are significantly increased. More than 20 research papers are published by the faculty members during previous five years and out of that numbers of research papers are published either in scopus or Web of Science and UGC listed journals. The faculties have also published 10-15 books and book chapters in books published by reputed publication houses of National and International standards. Further, IQAC recommended every department to organize conferences, seminars for the benefit of faculty members as well as students. So far during previous five years, various departments of College had organized 02 International Conferences, District level and regional workshops and competitions. During last five years 04 faculty members awarded Ph.D. and there are total 14 There 14 faculty members got Ph.D. awarded out of 20 faculty. Students and faculty members are motivated to participate in conferences, seminars, research conventions for paper presentation and research work in their respective disciplines with financial support.

## Outcome

The scheme has facilitated in broadening as well as creating excellence in the Research Activity base around the performing in the college. The research performance in the performing has increased, the researchers are benefited as their potential is tapped for scientific advance and innovation. College has provided significant boost in increasing the research impetus, triggering healthy competitions. Research is steadily increased in the College.

### II) Increased Use of ICT for Teaching Learning

Breakthroughs in information and communication technologies (ICTs) are increasingly providing language learners with opportunities for real-time interactions with those fluent in their target language. However, adoption of available ICTs may depend on students' perceptions of the ICTs as affordances. IQAC initiated to improve the ICT facilities in the college for teaching and learning purpose during last five years. Comparatively the ICT facility of the college was observed to be increased. It is discussed in IQAC meetings and resolved to strengthen the ICT facility for effective teaching learning process. The institute purchased equipment's i.e. LCD, scanners, computer, laptops, printers etc., as well as developed ICT infrastructure. Currently, the college has 03 classrooms and seminar halls with ICT facilities; Five departments with computer Laboratories. For online teaching, faculty used zoom, Google meet platforms. Administrative and examination section are also fully supported with ICT facilities and necessary software. Improvement of ICT facilities in the college for teaching and learning to cater the students more effectively is one of the most needed initiatives taken by our college IQAC. The comparative account of ICT facilities during at the time of 3<sup>rd</sup> cycle of NAAC accreditation and improvement therein is presented.

## Outcome

Considering this, technology might be the most effective way to improve College. While easy access to technology resources is critical for a digital school, it is not enough. Simply providing laptops or computers for usage has no positive outcome on learning. Therefore, it is important for technology to be integrated into the pedagogical methods as it proved to improve average grades and learning outcomes.
