

"First Year Induction Programme 2019-20"

Aim

The Induction Programme is intended to facilitate the academic, cultural and social adjustment of the first year commencing students. The programme activities are linked to the key strategic goals of the University, namely enhancing the Student Experience, developing quality in learning and teaching, and encouraging participation of students from diverse cultural and social backgrounds.

Student Induction Program engages with the new students as soon as they come into our institution. At the start of the induction, the students learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed. Then the different activities start, including those which are daily. It is important to help them adjust to the new environment and inculcate in them the ethos of the institution with a sense of larger purpose. The graduating student must have excellent knowledge and skills in the area of his study. However, he must also have broad understanding of society and relationships. Character needs to be nurtured as an essential quality by which he would understand and fulfill his responsibility as a citizen and a human being. Besides the above, several meta-skills and underlying values are needed.

Purpose: The Student Induction Program is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration. To make the newly joined students feel comfortable in their new environment, open them up, set a healthy daily routine, create bonding in the batch as well as between faculty and students, develop awareness, sensitivity and understanding of the self, people around them, society at large, and nature.

The Program is designed to:

- Sensitize students towards exploring their academic interests and activities
- Reduce competition and making them work for excellence
- Promote bonding within them
- Build relations between teachers and students
- Give a broader view of life
- Build attitude, behavior and character
